

Cookie Policy

This policy lays out how and why we use cookies on our website, www.net4com.eu, and offers resources that will allow you to make an informed decision regarding the acceptance, rejection or deletion of any cookies that we use. Your consent to our use of cookies is given explicitly by checking a pop-up message, which implies that you have read through the information below, you understand it and accept it. We also recommend that you read through our [terms and conditions](#) and [privacy policy](#). This cookies policy may change at any time, so please check it regularly.

What is a cookie?

A cookie is a small file of letters and numbers which is saved by a website to your computer or mobile device and is used to record specific pieces of information. Cookies often include an anonymised, unique identifier, meaning that data it records can be distinguished as coming from a separate place to other data, without revealing your personal information. When you visit a website, it asks permission to store a cookie in the cookies section of your hard drive.

Cookies are widely used on the internet to make websites work, to make them work more efficiently, or to provide information about your usage of the site to the site owner or other third parties.

Please be aware that restricting cookies will disable the usage of the functionality of our website and you should not use the website in the future.

How do we use cookies?

We use cookies to improve the way our websites work.

We use the so-called "Session cookies", which are stored only for the duration of your visit to a particular website. For example, if you add items to a shopping basket, a cookie allows the website to assign the shopping basket to the user of the inquiry request.

We do not use "Persistent cookies", which are stored in the cookie file of your browser for longer periods of time, sometimes until you clear your browser's cache manually, depending on the lifetime of the specific cookie.

We also use third-party cookies set by Google Tag Manager and Google Analytics to review our site functionality. The information retrieved by Google cookies is delivered to our Google account, and we have opted this information to be anonymous.

Third-party cookies

A third-party cookie is one that is associated with a different domain or website than the one that you visit. For example, on this site, we use third-party cookies built by Google to enable website analytics, but as our site is not on the Google domain, this makes their cookies "third-party" cookies. The Google Analytics cookie will recognise and count the number of people who visit our sites, as well as providing other information such as how long visitors stay, where they move to on our site, and what pages receive the most visits.

Google Tag Manager and Google Analytics

In using Google Tag Manager and Google Analytics cookies, it is our responsibility to ensure that you have access to the following information: This website uses Google Tag Manager and Google Analytics, a web analytics service provided by Google, Inc. ("Google"). Google Tag Manager and Google Analytics uses "cookies", which are text files placed on your computer, to help the website analyze how users use the site. The information generated by the cookie about your use of the website and your IP address will be anonymised and transmitted to and stored by Google on servers in the United States. Google will use this information for the purpose of evaluating your use of the website, compiling reports on website activity for website operators and providing other services relating to website activity and internet usage. Google may also transfer this information to third parties where required to do so by law, or where such third parties process the information on Google's behalf. Google will not associate your IP address with any other data held by Google. You may refuse the use of cookies by selecting the appropriate settings on your browser. However please note that if you do this you may not be able to use the full functionality of this website. By using this website, you consent to the processing of data about you by Google in the manner and for the purposes set out above. Google Analytics does not store any personal information about any website users. They offer [a comprehensive review of their Analytics data privacy and security commitments](#) in Google Support.
